

NIGHT VISION AND THERMAL IMAGING

Evening Meeting on Tuesday 21 November 2017, 18.30 – 21.00hrs

At

The Auldhouse Arms, 6 - 12 Langlands Rd, East Kilbride, Glasgow G75 9DW

An evening with Scott Country International – Night Vision and Thermal Imaging Specialists

A short, open LDNS committee meeting covering committee business, the latest information and discussion on Sporting Rates and the Deer Health Project, will be followed by the opportunity to see the latest thermal and night vision equipment available through south-west Scotland based Scott Country International. This includes the brand new Pulsar Helion XQ and XP series, Pulsar Quantum Lite XQ30V, Pulsar Argus Gen 2+, Pulsar Apex XQ50LRF Thermal and Pulsar Trail Thermal series.

There will be a short presentation from Ian Naysmith of Scott Country International on the technical characteristics of thermal imaging and night vision for deer management, and the opportunity to see, handle and 'test drive' the latest available technology subject to outdoor conditions.

Coffee and biscuits on arrival.

This is an open meeting. To register your attendance please advise:

Dick Playfair, Secretary, LDNS, by 13 November.
